Baytex Energy Trust is a conventional oil and gas income trust focused on maintaining its production and asset base through internal property development and delivering consistent returns to unitholders. Trust units of Baytex are traded on the Toronto Stock Exchange under the symbol BTE.UN.

Baytex's major crude oil and natural gas properties are located within two operating areas in Alberta, British Columbia and Saskatchewan – the Heavy Oil District and the Conventional Oil and Gas District. Each district constitutes a balanced portfolio of operated properties and development prospects with considerable upside potential. Baytex has skilled technical teams to operate each district. Each team has a mandate to apply its specific knowledge and expertise to its operating area. This focused approach aids in the evaluation of exploration, development and acquisition opportunities and improves cost efficiency.
