

Summer Student – Peace River, Alberta

Baytex Energy is looking for 2-3 temporary full-time positions for their Peace River Operations.

The successful candidates will be providing support to the Baytex Operations in each of our Operating areas, Harmon Valley, Reno and Seal Lake. The main tasks that they may be completing are:

- Lease Water Management
 - Support Ops in the placement of Water Pumps and Hoses.
 - Perform testing of lease water.
 - Manage daily records of water pumping activity.
 - Maintain operation of pumps with re-fueling and minor maintenance.
- Equipment Housekeeping and Improvements
 - Assist with general cleaning of sites; garbage removal, stain clean up, etc.
 - Painting of process piping.
 - Assist with Weed Mitigation.
- Support large activities such as Turn Arounds
 - Provide Site Entry control.
 - Provide Man-watch services for vessel entry.
 - Provide Gas monitoring services for hot-work
- Gas Measurement
 - Assist with the installation and removal of GOR Meters.
 - Generate Reports and manage tracking documents.

The schedule for each position will be determined based on the needs of Operations with the candidate's preferences taken under consideration. Mon-Fri or a 7 on 7 off schedule are both options. 10-hour days are expected but are not limited depending on the current needs of Operations.

The position is expected to last from mid to late April until mid to late August 2023.

The successful will receive \$25/hour for their services and will be paid as an employee with no benefits. OT will be paid as straight time.

Successful candidates will be required to have:

- Valid H2S and First Aid ticket, Baytex will cover the cost of the course
- Transportation to and from the field, Baytex will provide transportation within the field.

Applicants are invited to submit a resume to:

Chris Leroux, Production Superintendent

Chris.leroux@baytexenergy.com

Closing date: March 31st, 2023.
