

FACILITIES ENGINEER / TECHNOLOGIST, LIGHT OIL Full-time, Calgary, Alberta

Baytex Energy Corp. is an energy company with headquarters based in Calgary, Alberta and offices in Houston, Texas. The company is engaged in the acquisition, development, and production of crude oil and natural gas in the Western Canadian Sedimentary Basin and in the Eagle Ford in the United States. Byte's common shares are traded on the New York Stock Exchange and the Toronto Stock Exchange under the symbol BTE.

Baytex Energy invests in its staff, offering competitive health and wellness programs in addition to a flexible work environment that provides employees with the opportunity for office and remote work.

Baytex has an exciting opportunity for a **Facilities Engineer / Technologist** to join our team. Reporting to the Operations Manager, Light Oil Business Unit, the Facilities Engineer / Technologist will safely support and execute facility construction and optimization projects in our Saskatchewan and Alberta Viking light oil play areas.

Responsibilities:

- Lead and manage full project lifecycle including scope development, planning, detailed design, and execution for Single and Multi-Well Batteries installations, emissions reduction projects, compressor modifications, and facility debottlenecking.
- Provide direct field support during construction, commissioning, and start-up to ensure safe, efficient execution.
- Coordinate schedules, cost tracking, regulatory requirements, and drawings with internal teams and external stakeholders.
- Support field operations by troubleshooting day to day facility issues and driving the management of change (MOC) process.
- Evaluate and implement facility process improvements to enhance performance and reliability.

Qualifications:

- 5 years or more of related experience in oil and gas projects.
- Bachelor's degree or technical diploma in an engineering discipline.
- Proven project management skills in a fast-paced environment.
- Strong team player within a multidisciplinary environment.
- Effective verbal and written communication skills.
- Working knowledge of the current codes, standards and regulatory requirements associated with oil and gas facility-related projects in Alberta and Saskatchewan.
- Must be willing and able to travel within Alberta and Saskatchewan on a regular basis.

Interested and qualified applicants may submit their resume in confidence to:
resumes@baytexenergy.com. Closing date: July 25, 2025.

Baytex Energy thanks all applicants for their interest; however, only candidates chosen for an interview will be contacted.
