

Measurement Specialist – 1 Year Contract

Baytex has an excellent opportunity for a **Measurement Specialist – 1 Year Contract with the potential to move to a full-time employee position**. This position will provide corporate measurement expertise to ensure cost-efficient regulatory compliance throughout our operations in Alberta and Saskatchewan, and will report to the Operations Manager, Light Oil.

Key Responsibilities:

- Perform regular field visits to assess facility measurement compliance with Alberta Energy Regulator Directive 017 & Saskatchewan Ministry of Energy and Resources Directive PNG017.
- Provide a corporate gap analysis and action plan on all key aspects of measurement compliance and production reporting.
- Provide facility project support on measurement design with recommendations that achieve optimal balance between cost efficiency and regulatory compliance.
- Provide operations support to update or create processes that maintain measurement compliance.
- Support and provide recommendations on corporate EPAP initiatives.
- Develop corporate measurement guidelines and processes that can be consistently applied across all field locations, with area-specific guidelines as-needed.
- Educate all areas of the corporation on measurement regulations and efficient compliance processes including production accounting, engineering, field operations, marketing, and corporate accounting.
- Liaise with the AER and MER regulatory bodies on measurement items.
- Direct third-party measurement consultants to scope and execute specific projects if required.

Qualifications:

- Extensive in-depth understanding and interpretation experience with Directive 017 & PNG017 directives and all associated regulations, directives, guidelines, and bulletins.
- Possess an understanding of the design and operations of oil & gas production facilities.
- Valid driver's license and ability to travel to field locations regularly.

Key Attributes:

- Self-motivated and detail-oriented team player.
- Strong interpersonal and communication skills.
- Proactive approach to problem solving.
- Positive attitude and eager to embrace challenges in a team environment.
- Demonstrated organizational and project management skills.
- Advanced Excel skills.
