

Geologist

Baytex has an excellent opportunity for an experienced **Junior to Intermediate Geologist**. This full-time position is located in our Calgary office and reports directly to the Geosciences Manager, Heavy Oil Business Unit.

Responsibilities:

- Work with the geoscience and engineering teams to execute drilling programs
- Prepare pre-spud geology packages including directional plans, progs, and offset data
- Interpret geological and drilling information to optimize well placement and efficiencies
- Compile and present results and learnings to management
- Ability and ambition to take on future responsibilities including exploration, long range planning, and reserves

Qualifications / Experience:

- Bachelor degree in Geology
- 2 to 8 years geology experience
- Wellsite geology background is required, with experience in heavy oil horizontal, multilateral, and strat drilling preferred
- Geosteering experience (remote or onsite) is favored
- Strong knowledge of rig operations, directional drilling, striplogs/Canstrat
- Ability to clearly and confidently communicate with field and office staff
- Excellent interpersonal and written communication, organization and analytical skills
- Capability to stay composed, troubleshoot and make critical decisions in unplanned and stressful events
- Understanding of well log interpretation
- Experience with mapping programs (Geoscout, Accumap) is a benefit but not required
- Current status or required qualification for membership in APEGA

If you are interested in applying for this position, please submit your resume clearly indicating the job title and job code by October 18th, 2021 to resumes@baytexenergy.com

Job Code: TK002-1
