

Health & Safety Advisor, Light Oil Business Unit

1-year contract with the potential to move to a full-time employee position

Baytex is looking for an experienced Health & Safety Advisor to support operations within our Light Oil Business Unit. Primarily based in Kindersley, Saskatchewan, this position will report to the Manager of Health & Safety and be responsible for supporting the Company's health & safety compliance programs. The successful candidate will have overall responsibility for providing advice, support and coordination of health and safety activities that form Baytex's Health & Safety Management system.

Responsibilities:

- Support multiple disciplines including Drilling, Completions, Construction, Fluid Hauling and Operations.
- Facilitate contractor evaluations, job observations, and equipment inspections.
- Assist with facility turnaround planning, and execution. On-site supervision for turnaround activities.
- Work with operations to develop and write Safe Operating Procedures.
- Observe on-site activities and provide coaching/mentoring.
- Facilitate kick-off's, orientations and safety meetings.
- Determine HSE training needs and monitor frequencies.
- On call for emergency situations in both safety and environment.
- Ability to travel between geographical locations (Alberta & Saskatchewan).
- Conduct incident investigations.

Qualifications / Knowledge:

- OH&S Certificate or equivalent preferred.
- Minimum 5 years in a health and safety role within the oil and gas industry.
- Thorough knowledge in incident investigation and root cause analysis.
- Ability to work occasional overtime and assume on-call responsibilities.
- Strong knowledge with provincial and federal OH&S regulation and code, environmental regulations, transportation safety regulations, AER/MER regulations.
- Proficient on using Microsoft suite of products.

Key Attributes:

- Strong leadership abilities and positive solution-based attitude.
- Excellent interpersonal and organizational skills are essential.
- Exceptional team building skills.
- Ability to take direction well.
