

CONTRACT LEAD OPERATOR_KINDERSLEY_VIKING

Number of positions available: 2

Location: Kindersley, Saskatchewan

Baytex has an excellent opportunity for a full-time contractor as a Lead Operator. This position will be responsible for a strong team of operators across select areas, report to the Production Superintendent, and work closely with the engineering and accounting groups.

Key Responsibilities:

- Work closely with operating staff to ensure netback-based decisions are made to optimize production and operating costs
- Demonstrate leadership and accountability of the Baytex safety values and policies with staff, vendors and suppliers
- Generate a weekly production report summarizing production losses and any other pertinent activities in your area
- Help to ensure accurate field testing is done and data entered correctly
- Assist in the training of new staff
- Be able to relief operate from time to time on short notice
- Be a strong leader, coach and mentor with the operators
- This will be 4 days on, 3 days off schedule

Qualifications:

- Minimum ten (10) years' of progressive experience operating oil and gas wells
- Successful team leadership experience
- Ability to communicate and collaborate well with others in a team environment
- Identify problems and develop solutions
- Valid H2S Alive, WHMIS and First Aid Certificates would be an asset

Job Code: DW-002-05

Closing Date: November 12, 2021

If you are interested in applying for this position, please submit your resume clearly indicating the position title and job code by Friday, November 12, 2021 to resumes@baytexenergy.com

We thank all applicants for their interest; however, only those candidates selected for an interview will be contacted.
