

Geologist

Baytex has an excellent opportunity for a **Junior to Intermediate Geologist**. This full-time position is located in our Calgary office and reports to the Subsurface Manager, Light Oil Business Unit. This role will support assets within our mature Western Canadian, light oil and gas business and our Eagleford resource play.

Responsibilities:

- Generating and maintaining integrated geological project maps
- Analyzing OHCIP, defining current and forecasted recovery factors
- Characterizing and quantifying inventory and contributing to type well inputs
- Assisting with preparation of pre-spud geology packages including directional plans, progs, and offset data
- Providing ongoing input to engineering, drilling and production operations to assist with execution of the drilling programs and optimize the base wells
- Support asset retirement obligations such as land expiry evaluations, continuation applications, and input to well abandonment regulatory requirements
- Work with Eagleford operator to track activity, analyze well results, & maintain inventory.
- Interpret geological and drilling information to optimize well placement and efficiencies
- Compile and present results and learnings to management
- Ability and ambition to take on future responsibilities including acquisition/divestiture evaluations, long range planning

Qualifications / Experience:

- Bachelor degree in Geology
- 5 to 8 years oil and gas geology experience
- Strong well log interpretation skills
- Experience with Geoscout mapping program (ArcGIS, Petra beneficial)
- Ability to clearly and confidently communicate with field and office staff
- Excellent interpersonal and written communication, organization and analytical skills
- Current status or qualification for membership in APEGA
- US asset experience beneficial but not a requirement
